3<sup>rd</sup> August 05

Dear Mr Dunleavy

**Reference: Preparatory Works at Radley Lakes**

Thank you for your letter dated 29<sup>th</sup> July 05.

At the meeting held at Didcot A Power Station on 2<sup>nd</sup> August 05 we confirmed that no works would take place on Radley lakes E & F until all necessary permissions have been obtained. We also confirmed that a number of contracting companies have visited the site to enable them to submit tenders for the proposed construction works.

With regard to timescales for the commencement of construction, clearly we would like to start as soon as possible. This is why we gave the tenderers a short period in which to respond. We recognise, however, that this is subject to the permission being received from OCC.

Concerning your letter referring to the Habitat Directive. I understand from my colleagues that this is being looked into.

I trust that the above allays any fears you may have that we intend to start work imminently.

With regard to your query about the Sandles property, our intention at present is to secure the house to prevent vandalism.

Yours sincerely

Phil Noake  
Performance & Commercial Manager
